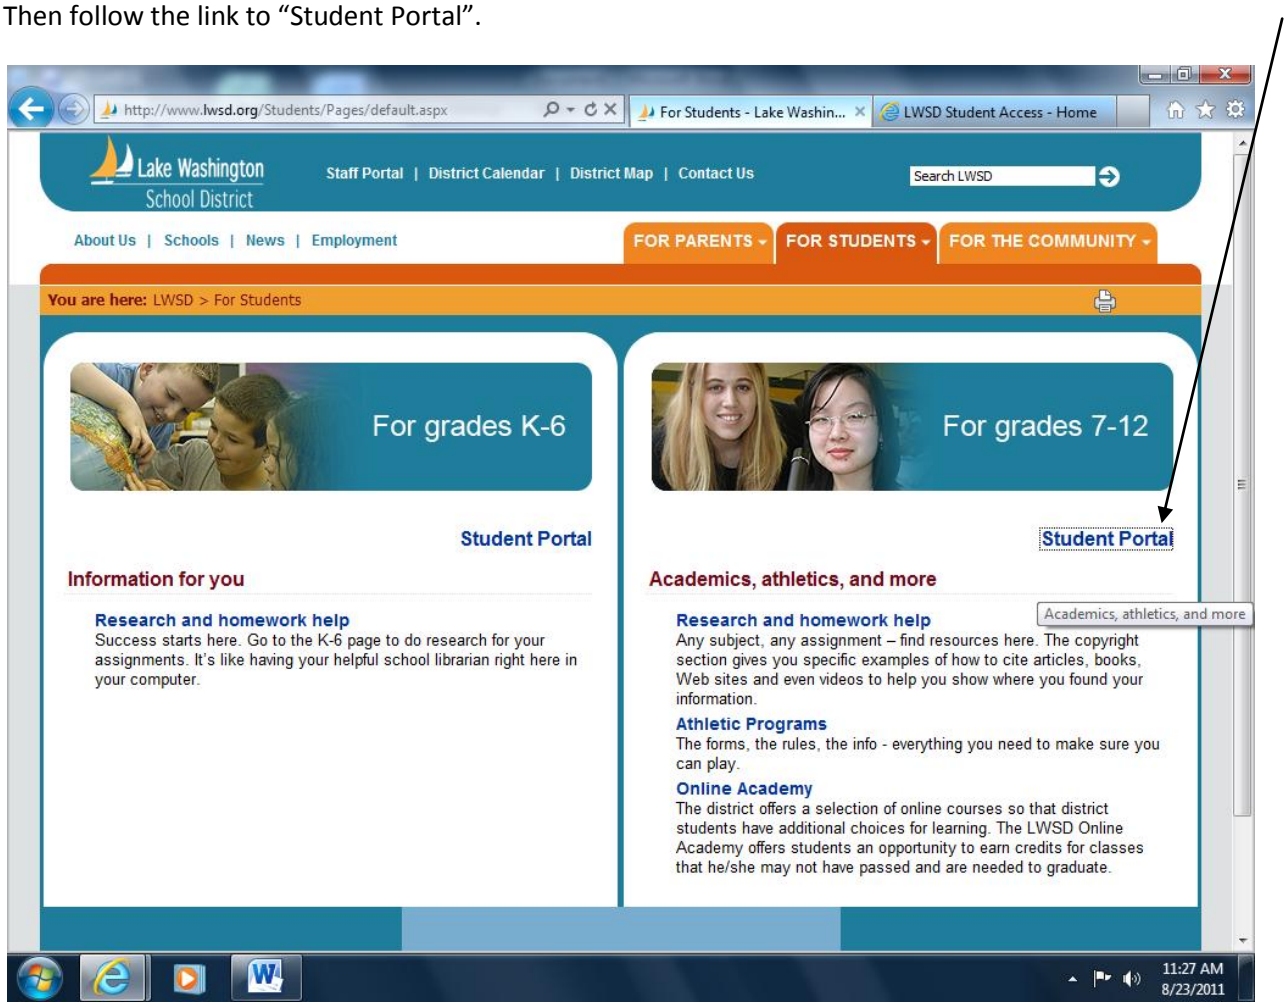
Student Email

Every secondary student in the Lake Washington School District has a student email account. You can access your email account through the Student Portal.

Go to the Lake Washington School District homepage (http://www.lwsd.org). Click on “For Students”.

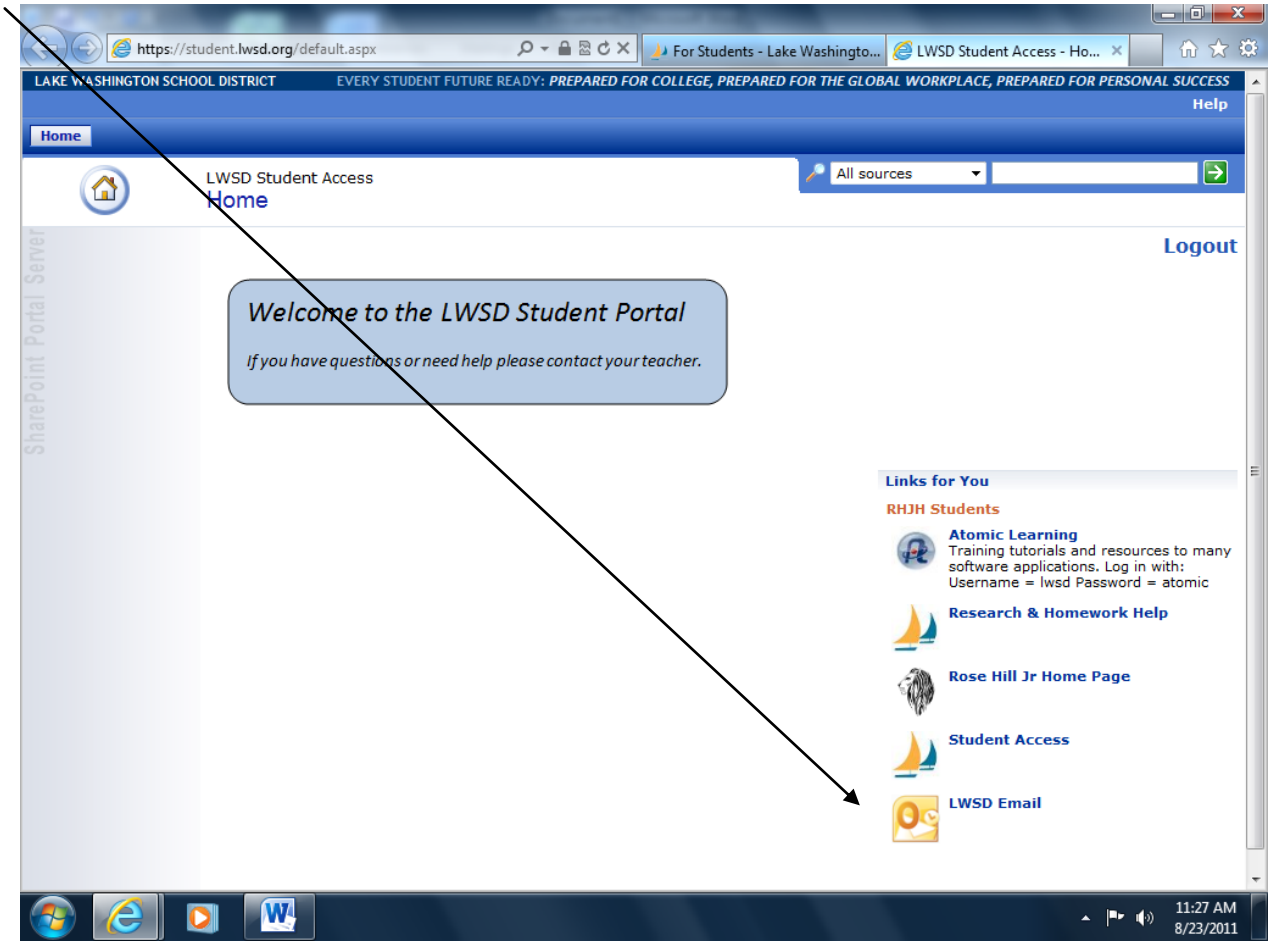
Then follow the link to “Student Portal”.



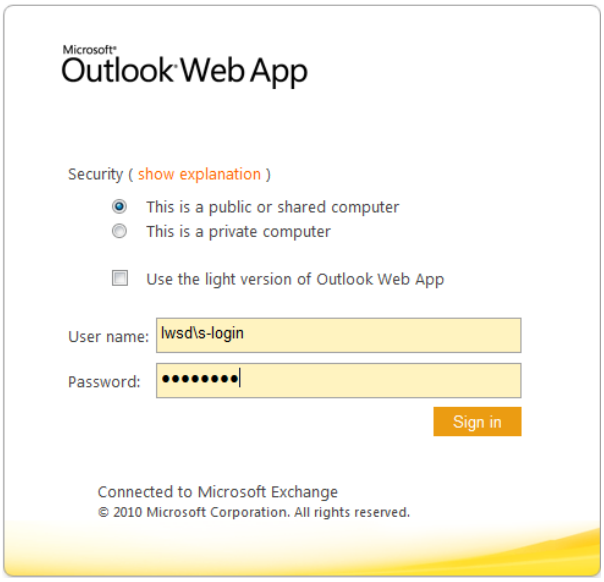
You can also access the Student Portal on any district website with the following image link:

You can also go directly to the mail login site by going to http://mail.lwsd.org.

Once you have logged into the Student Portal, you will see a link to LWSD Email.



Next, you will log into the email system. It is important that when you log in, you type lwsd\ before your login ID. Your login ID and password are the same as those you use to log into a school computer.



You have now logged into your student email! Your email address is s-login@lwsd.org.

Emailing Teachers

One of the most important uses of school email is to communicate with your teachers. You will find teacher emails on school websites, but each email is usually the teacher's first initial and last name, followed by @lwsd.org.

Remember that when you email your teacher, you should always use your best grammar, spelling and good writing. Avoid using texting language or slang. Make yourself sound like a good student!
